

Fact Sheet

Want to take charge of your own finances and reach your financial goals? Whether you want to build your credit, open your first bank account, find ways to increase your savings or pay down your debt, start your own business, invest in the market, or purchase a home, the Hands on Banking® program provides the money tools, skills, and information you need. Available in English and Spanish, this free, engaging, and non-commercial program offers easy to navigate online programs, courses, and resources to help you build your financial foundation.

Program Highlights: Adult

- Personalized and customized content designed to help adults reach their financial goals
- Financial fundamentals for adults in various stages of life and interests, from entrepreneurs and service members to older adults
- Helpful resources for individuals, educators, non-profits, and workplace education providers

Program Highlights: Youth

- Aligns with K-12 standards for mathematics, reading, economics, financial literacy, and family and consumer sciences standards
- Easy to navigate online programs, courses, resources, and tools for youth and educators (for individual, online, or classroom learning)
- Helpful resources for parents and caregivers
